Year 7 literacy and numeracy catch up premium

We received £1,034 in 2019/20

The money is used to maintain and develop the strategies in place for targeting the development of literacy and numeracy. Existing strategies are:

- Reading group in Year 7
- Spelling group in Year 7
- Small group support in Year 7 English lessons
- Small group workshop in Year 7 form time in numeracy
- Small group support in Year 7 Maths lessons
- 6 week intervention topic work in Maths
- To facilitate screening that further informs future intervention and support provision

Impact:

- In English: 100% of the students identified are currently attaining a 'level' broadly in-line with our aspirational targets,
- Students attending reading and spelling clubs have increased their reading and spelling ages.
- Students attending catch-up classes have, on average, sustained progress in line with their original EPLs in Mathematics from the beginning of Y7.

This premium is paid within COVID Catch Up Premium 2020/2021.
